TOWN WARRANT**THE STATE OF NEW HAMPSHIRE**

To the Inhabitants of the Town of Raymond in the County of Rockingham in said State, qualified to vote in Town Affairs:

You are hereby notified to meet at I. O. O. F. Hall in said Raymond on Tuesday, the eighth day of March, next, at ten of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing.
2. To hear reports of Agents, Auditors, Committees, or Officers chosen, and pass any vote relating thereto.
3. To raise such sums of money as may be necessary to defray town charges for the ensuing year and make appropriations of the same. *12.60*
4. To fix compensation for collecting taxes for the year ensuing. *4.00*
5. To see if the town will vote to use \$1,000.00 of the amount reserved for purchase of new highway equipment toward payment of bill for overhauling caterpillar tractor.
6. To see what sum of money the town will vote to raise and appropriate for town maintenance including snow.
7. To see what sum of money the town will vote to raise and appropriate for street lighting.
8. To see what sum of money the town will vote to raise and appropriate for Memorial Day. *4.00*

9. To see what sum of money the town will vote to raise and appropriate for the Fire Department.

10. To see what sum of money the town will vote to raise and appropriate for Dudley-Tucker Library.

11. To see if the town will vote to authorize the Selectmen to borrow money in anticipation of taxes.

12. To see if the town will vote to raise and appropriate such sums for State Highways as recommended by the New Hampshire State Highway Department.

13. To see if the town will vote to raise and appropriate \$2,000.00 toward payment of debt.

14. To see what sum of money the town will vote to raise and appropriate for tarring.

15. To hear the report of the dump committee and pass any regulations pertaining to the dump. To raise and appropriate such sum of money as is necessary for maintaining the dump.

16. To see what sum of money the town will vote to raise and appropriate for cleaning Main Street.

17. To see what sum of money the town will vote for membership in the Merrimack Valley Regional Association.

18. To see if the town will vote to authorize the Selectmen to use the \$350.00 this year that was so appropriated in 1948 but was not used for the new cemetery entrance.

19. To see what sum of money the town will vote to raise and appropriate for parks and playgrounds. Also to pass any regulation pertaining to the common.

20. To see if the town will vote to raise and appropriate the sum of \$220.52 to pay balance of town's share on New Bridge construction.

21. To see if the town will vote to deed, free of charge, to one or more veterans' organizations, one or two lots in the new cemetery.

22. To see if the town will vote to borrow a sum not exceeding \$6,000.00 for the extension of water mains in the Town of Raymond, and to issue and sell in connection with such borrowing, notes of the Town of Raymond in the principal amount not exceeding \$6,000.00, such notes to be issued pursuant to Chapter 72 of the Revised Laws of 1942 as amended, payable from funds to be raised by taxation, to bear interest at a rate not exceeding 5%, payable semi-annually, principal payable in equal annual installments of \$400.00 per year, the first payment being due one year from date of said notes, and all other matters in connection with said notes to be left to the discretion of the Selectmen.

23. To see if the town will vote to extend water to, or otherwise provide water in the new cemetery, and raise and appropriate money for the same.

24. To hear the report of the Zoning Ordinance and/or a Building Code committee and act upon its recommendations.

25. To see if the town will vote to find that there is need for a housing authority to function in said town, under the provisions of the Housing Authorities Laws, Chapter 169, of the Revised Laws, as amended.

26. To see if the town will vote to authorize the Selectmen to enter into a Cooperation Agreement with the Housing Authority of the Town of Raymond to exempt projects of the Authority from taxation, to receive 10% of shelter rent in lieu thereof, to provide municipal services and facilities for the projects and the tenants thereof of the same character as those furnished without charge to other dwellings and inhabitants in the town of Raymond, to accept land the Au-

thority determines to use for streets within the project, to install, grade and pave such streets, to install water lines and fire hydrants, and otherwise to cooperate with the Authority, all as authorized in Sections 21-24 of Part I of Chapter 169 of the Revised Laws of New Hampshire, as amended.

27. To see if the town will vote to raise and appropriate the sum of \$1.00 or so much thereof as may be necessary for the purposes of Article 26.

28. To see if the town will vote to sell the tract of land on Route 101 to the Raymond Housing Authority for \$1.00 and other valuable considerations and authorize the Selectmen to execute the deed therefor.

29. On petition of Joseph R. Grace and ten others, to see if the town will vote to raise and appropriate the sum of One hundred and twenty-five dollars annually, to have Christmas street lights installed as they were the past season.

30. On petition of Leon H. Belden and twenty-eight others, to see what amount of money the people of the Town of Raymond will appropriate for the continuation of the tarring of Lane Road.

31. On petition of Robert E. Eccleston and nine others, to see if the town will vote to enforce Chapter 188, Revised Laws of New Hampshire, 1942, entitled "Hawkers and Peddlers," paragraph 1 to 17 inclusive.

32. To transact such other business as may legally come before said meeting.

Given under our hands and seal, this eighteenth day of February, in the year of our Lord nineteen hundred and forty-nine.

GEORGE C. GOVE,
HOWARD W. EDWARDS,
ROSCOE M. NOWELL,
Selectmen of Raymond.

A true copy of Warrant—Attest:

GEORGE C. GOVE,
HOWARD W. EDWARDS,
ROSCOE M. NOWELL,

Selectmen of Raymond.

AUDITORS' REPORT

We, the undersigned auditors for the Town of Raymond, N. H., have examined the accounts of the Selectmen, Trustees of Trust Funds, Clerk, Trustees of Library, Tax Collector, Treasurer of Town and Water Department for the year ending December 31, 1948, and find them correctly cast and properly vouched.

ROBERT E. ECCLESTON,
PHYLLIS A. GOVE,

February 15, 1949.

Auditors.

**ANNUAL REPORT OF RAYMOND FIRE
DEPARTMENT**

To the Selectmen of Raymond, N. H.:

Gentlemen:

The following is a brief summary of the activities of the Fire Department for the year 1948, from May 1 to December 31.

Number of Alarms:

20 Bell alarms
6 Still alarms

Kinds of Fires:

13 Dwelling fires
6 Brush fires
4 Dump fires
3 Automobile fires

\$26,125 00	Assessed Valuation of Buildings
12,200 00	Estimated Value of Contents
405 00	Estimated Loss of Buildings
2,060 00	Estimated Loss of Contents

160 00	Insurance Paid
1500	Estimated Population
1.079	Cost Protection Per Capita
1.643	Fire Loss Per Capita
0.107	Insurance Paid Per Capita

Running Expense for the Year:

\$1,600 00	Appropriation
21 00	Money turned in to Treasurer
451 33	New Equipment
227 00	Insurance Men and Trucks
265 62	Salaries
675 45	Running Expenses
60	Balance

Inspections, Licenses and Permits:

47	Number of Inspections
14	Licenses for Places of Assembly
1	Permit for Fireworks Display

We had two serious fires that caused estimated losses of eleven hundred and eleven hundred and fifty dollars on furniture stored away outside of the hydrant system where no water was available and in both cases no insurance was carried.

The town-owned equipment is in fair shape at the present time, but serious thought must be given by the townspeople to the fact that our pumper is nearly twenty years old and is wearing out and must be replaced sometime in the near future. We must also start to replace some of the two and one-half inch hose that was purchased in 1930, and provisions should be made for drying equipment for drying hose after a fire. We have lost several lengths of hose in the past due to improper drying. We should also make plans to have a tank truck to be able to haul water to fires outside the hydrant district.

Equipment was purchased during the past year for fighting oil fires in dwellings which is fast becom-

ing a menace, especially oil burners which are improperly installed and oil burners which are not properly maintained by a competent service man.

I want to take this opportunity of thanking the garage men of Raymond, especially Mr. Waterhouse and Mr. Smith, in the giving of their time and efforts in helping us to make repairs to the equipment, and to Mr. Hutchins for furnishing wood for the recreation room at the Station, and to the Selectmen for their co-operation.

Respectfully submitted,

P. A. FOX,

Chief.

DUDLEY-TUCKER LIBRARY REPORT

Total number of active borrowers during year, 130

ALICE M. WASON,

Librarian.

REPORT OF THE WATER COMMISSIONERS

To the Citizens of Raymond:

Your Commissioners requested Weston & Sampson, Consulting Engineers of Boston, to make a survey of various extensions to our water distribution system and on January 20, 1949, we received their report along with estimated figures and map. Their report goes into detail and will be invaluable for further use. The following is a summary of the estimated costs of the various extensions:

Extension	Size Inches	Length Feet	Cost
1. Pumping Station to Harriman Rd.	8	1000	\$7,300 00
2. Harriman Rd.-South of Route 101	8	250	2,600 00
3. Harriman Rd.-North of Route 101	8	465	3,300 00
4. Route 101-West of Harriman Rd.	8	1460	12,300 00
5. Route 101-East of Harriman Rd.	8	1100	7,100 00
6. The Plains	8	1150	5,100 00
7. Epping St.	8	1950	13,600 00
8. Fremont St.	8	540	3,300 00
	<hr/>	<hr/>	<hr/>
	7915	\$54,600 00	

Now there are some houses being built on Route 101 and the question is, do we want to extend our mains to serve them?

Taking figures from the report and looking at the problem from all angles we Commissioners feel that the way to serve this area is not along the highway but through Mr. Sundeen's lumber yard (to do this the property owner would give us an easement across his land), across Route 101 and extending both ways if necessary, north or south. The approximate distance from our present main on Harriman Road would be four hundred seventy-five feet. Now, extending south another four hundred feet would certainly take care of three or four houses which will be built in that direction. The estimated cost is as follows:

8-in. Bell and Spigot Pipe, cement lined, 875 ft. at \$2.75,	\$2,406 25
Cast iron fittings, 800 lbs. at \$0.135,	108 00
8-in. Gate valve and box installed,	75 00
6-in. Gate valve and box installed,	50 00
Fire hydrants and connection installed, 2 for \$200.00,	400 00
Excavating, laying and backfilling, 875 ft. at \$1.75,	1,531 25
	<hr/>
	\$4,570 50
Engineering and contingencies, 15%,	685 58
	<hr/>
Total estimated cost,	\$5,256 08

It is assumed that no rock excavation will be encountered, if so the estimated cost is \$16.00 a cubic yard. This work would be done by contract after obtaining competitive bids and that the town would purchase the pipe, fittings, hydrants, gate valves and valve boxes.

If the town votes favorable for this extension and it takes a two-thirds vote to pass, the problem arises how we can pay for it. You will notice the article reads that the funds are to be raised by taxation; this is necessary because after all the town is responsible for its water department. However, we feel that the water department itself can be made to pay this debt with proper planning and borrowing, working in harmony with the selectmen.

AUDITORS' CERTIFICATE

This is to certify that we have examined the books, vouchers, bank statements and other financial records of the treasurer of the school district of Raymond, N. H., of which the above is a true summary for the fiscal year ending June 30, 1948, and find them correct in all respects.

ROBERT E. ECCLESTON,
PHYLLIS A. GOVE,

July 26, 1948.

Auditors.

REPORT OF RAYMOND SCHOOL BOARD

1948 has been a busy year for the School Board and its associates. Much has taken place and many things have happened. Altogether we are able to present to you citizens and your children a better school and better school conditions than ever before.

We are equally as proud to inform you that your school now holds an A-6 state rating, meaning that your school is one of the best in the state. The "A" rating means that our quality is tops and that we are employing good teachers, approved by the State Board of Education, for the subjects they teach, many of them having had experience before coming here. The "6" stands for two years of junior high and four years of senior high school, which are combined under the "A" rating. This rating is a big help to our boys and girls who graduate from your school and especially to those who go on to other schools to further their education. Without the new addition to your school this rating would not be possible, as we could not offer and teach the necessary subjects.

The addition was quite a project with all its preliminary work and meetings, as well as all the weekly meetings necessary to keep everything progressing. However, we produced your addition within the \$25,000.00 which you voted for this purpose. The accounts and figures are not complete at this time due to adjustments on returned material, insurance and other small bills which are still outstanding.

It was very unfortunate that Mr. Charles P. McCarthy chose to bring your school board into court over what was proven to be a false impression of the construction of the building, thereby costing the citizens of Raymond \$357.53 in legal fees and other expenses of the court hearing. It also retarded the speed and progress of the construction of the building which was

bound to run into an expense on the cost of the building which is hard to estimate. The addition was found to be sound, solidly built and adequate for all school purposes that might ever be imposed on it. This addition was built at a cost way below most building costs of today. Thanks to your townspeople who built it and worked on it in all the various trades required to complete it. Also, to all the business people in town who gave discounts on materials of one kind or another, furnished by them for the project. It is an outstanding example of what can be done by working together.

The interior walls of the building were finished in soft tones of pink, blue and green, thereby reducing eye glare and strain to a minimum. Green Lite Site chalk boards were installed instead of the old black boards used years ago, which are much easier on your children's eyes. And last but not least the new fluorescent lighting system recommended for schools today was installed making them as near perfect classrooms as can be built. For heat the new Herman Nelson ventilating units were used. They are unsurpassable for heating and doing a ventilation job for the classrooms in warm weather, thereby eliminating stuffiness and sticky conditions on hot days. Altogether the job was well done and we are glad that our children in Raymond have parents and citizens who think a lot of their children and the future of their community.

The painting job on the old building was done by John Acheson at a very reasonable cost of \$694.53, the balance of which we will need to balance our books in June. We made many repairs to the older part of the school which needed attention badly, but they cost more than planned in our original figures in the budget for minor repairs. We fixed several leaks and near leaks in the main roof of the old building. The finish ledge that goes completely around the building had to

be reroofed as well as the canopies over the ventilators at the top of the old building. We had to build a supply room in one corner of the boys' basement for the supplies of the school lunch program and all the paper supplies of the school. We are having a sprinkler head installed in this room for fire protection. We built new counters and tables for the school cafeteria, necessitated by the ever increasing number of children getting a warm dinner at school. Some minor repairs had to be made to the Chemistry laboratory and Agriculture building and as usual we refinished several rooms in the old building, thereby keeping them up in shape.

Probably the best thing we did was to build a fire exit on the rear side of the main building for the young children occupying the three rooms on that side on the first floor. This gives them an escape in case of fire free from the older children and directly into the open area towards the baseball grounds.

Our school was inspected by the state Fire Marshal and our local fire department. Out of this report we had to make some changes in the exits at the rear of the auditorium and other minor changes throughout the school.

The repairs which we made this year are going to help keep our 1949-50 budget down to about this year's appropriations. We have worked on the new budget tirelessly in an effort to find ways of keeping the budget cost down and yet keep the high standards of the school up where they are now. In this, as in everything else we do, we work with two objectives in view—first your children and their future and last but not least the cost to the citizens of Raymond.

Respectfully submitted,

JOSIAH R. GORDON,
ARTHUR W. SEVERANCE,
MILDRED R. GUPTILL,

School Board.

ANNUAL REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Board of Raymond:

It is with pleasure that I present to you my second annual report of the Schools of Raymond.

May I express my thanks and appreciation to the School Board, Selectmen, Treasurer, Janitor, Teachers, Pupils and all other individuals and organizations that have helped to improve the schools of Raymond and meet the challenge of modern education with courage and fortitude under present domestic and world conditions.

Teachers and Other Employees for 1948-1949

At the close of the school year in June, 1948, it was necessary to fill seven vacancies and add another teacher in the high school. The following is a list of the teaching staff and other employees for the year 1948-49:

Walter L. Mirey, Jr.	Principal, Social Science, and English
John J. Callaghan	Social Science and Boys' Sports
Raymond H. Presby	Agriculture and Junior High Shop
Raymond J. Antell	English, Languages, and Dramatics
Joseph R. Pirky	Science and Mathematics
Geraldine H. Buckley	Commercial Subjects and Girls' Sports
Frances L. McKenney	Home Economics and School Lunches
Ruth T. Houghton	Grade 1
Helen T. Forgan	Grade 2
Kate G. Shaw	Grade 3
Miriam E. Vining	Grade 4
Ethel M. Scott	Grade 5
A. Willis Goddard	Grade 6 and Elementary Music
Merrick Danforth	Junior and Senior High Music
Margaret E. Cronin	School Nurse
John P. Littlefield	Building Custodian
Mrs. Freda Cate	School Lunch Program
Andrew J. Gordon	Transporter of Pupils
Ai S. Welch	Transporter of Pupils

The following teachers left the system in June, 1948:

Henry F. Buinicky, teaching in Newport, N. H.
 David H. Taylor, last address was Orange, Conn.
 Alice E. Morrill, at home in Merrimack, N. H.
 M. Virginia Bonner, teaching in Charlestown, N. H.
 Dorothy Silivalja, in Florida for the winter.
 Madeleine Waterhouse is at home in Raymond, N. H.
 Ellen S. Tapply is living in Plymouth, N. H. Mr. Tapply is teaching at the high school.

In my opinion, the greatest achievement during the year has been the necessary addition to the school. It has shown not only the interest and farsightedness of the citizens of the town, but is a concrete example of community cooperation. Nearly all

labor was recruited from the town itself and the men who had charge of the actual building program were taxpayers. The tireless efforts of the members of the School Board in meeting every week with the elected special building committee to check material, bills, and problems which had arisen and the personal loss sustained by them in taking time out to place the welfare of the boys and girls of the town first when important problems needed to be solved is a fine tribute to community spirit and individual sacrifice.

The entire building program deserves commendation and the increased enrollment has been alleviated making conditions much more healthy, attractive, inviting, and congenial to both pupils and teachers.

Many minor repairs and replacements have been completed including modern lighting in the new Home Economics room along with the installation of machines and floor plugs, the new basement storeroom where, with the increased space necessary for the storing of surplus materials for school lunches this room was needed, benches and tables in the lunch room, and the cutting and installing of a new fire door on the east side of the building.

Another major project absolutely necessary to the upkeep and maintenance of the school property was the painting of the school buildings which was undertaken by local workmen and required skill and ingenuity in blending and matching to maintain uniformity over the entire surface. Surely an excellent piece of workmanship.

Chemistry and Languages have been returned to the curriculum thus making it possible now to prepare youngsters to meet requirements in the trades, college preparatory, and home economics courses. Agriculture was returned to the school and an experienced man who has had actual experience in farming as an owner as well as a teacher was engaged. In my opinion it is and will continue to meet the needs of the community as well as those towns in our vicinity. The Commercial course was revised and augmented thus making it possible for a youngster to enter grade nine and be prepared with four years of commercial training to enter the business world on a par with other boys and girls with similar training. Improvements instituted a year ago which have proved worthwhile and helpful to the youth of the school have been continued including the report card and the ranking system, permanent records, the testing program, and the activities program.

It is a pleasure for any administrator to report the sound condition of the High School Activities Association. With enough funds to pay all outstanding obligations and the association placed on a businesslike basis, each boy and girl, class organization and athletic team can function for the good of the greatest number. A fine spirit of cooperation between the boys and girls of the school and the administration.

In order that the citizens of the town may study the costs of our educational system as compared with the State costs and in order that they may look into the future and study enrollment predictions together with the statistics of the town, the following tables are presented:

In Studying Table II you will discover a general fluctuation in both the total enrollment and average membership for the eight years tabulated. This is true except for the year ending June, 1948, when the membership is more convergent upon the enrollment. This is due in great part to the education mindedness of the parent as well as the pupil in his understanding of the need of a better education to meet growing competition which grew out of the war. Again this increase in enrollment is reflected in the number of pupils transported by the district either from the standpoint of greater population or an understanding of education needs or both.

In Table III school costs have been compiled to show more or less steady growth in these costs. The peak in the past three years was reached in 1947-48 in the cost of elementary instruction but was not reached until 1948-49 in high school instruction. There are a number of reasons for this situation, but probably the one which would show the clearest picture is the fact of the great increase in teachers' salaries, transportation, and tuitions. When we consider the average membership of the three years in comparison with the costs—both current and total—even though in 1948-49 the budgets in the State were the largest in history, we cannot be too critical although state costs continue to advance on both the elementary and secondary level.

When we turn to Table IV and study the forecast of future school enrollment we are confronted with the appalling growth of the school population in the country. From 1947 to 1958 inclusive the estimated growth is from 24,500,000 children to 34,200,000 children. High school graduates do not keep pace with the number of children entering grade one or grade nine, but it is a significant fact that the increase of nearly 2,000,000 high school pupils over this ten-year period will not reduce the cost of education. Anyone who desires to follow closely this pupil growth can read between the lines in the mounting costs of education. If this person is so inclined it would be possible to take the 1948-49 budget and work on the probable budget for 1958-59.

The peak enrollment in grade one occurs in 1954 and 1955. This peak develops in each grade until 1960. The peak for the total elementary school is in 1957 and for the high school is in 1958. Can we predict that the grand total in 1960 will return to the total of 1947?

It is difficult in a report of this type to make recommendations when \$25,000 has just been raised by a citizenry for its schools and when it is realized that in the next ten years the costs of education must increase regardless of all the efforts of the men and women who hold the purse-strings. However, education is the largest single business in this country or the world and if we are to maintain the American way of life and educate the future men and women of these United States, it is my humble opinion that certain factors should be brought before you at this time.

Certain data showing costs as well as future enrollments

have been placed before you. Certain advancements have been made this year as have been pointed out in this report, but the following recommendations are set forth at this point for your consideration and attention bearing in mind that in making these recommendations I realize the heavy tax rate under which the taxpayer of Raymond is laboring. But it is also necessary to realize the conditions and forces working to preserve the ground gained in the advancement of this all important basic fundamental to American life and liberty.

Therefore, with this brief introduction, I submit the following recommendations for the year 1949-50:

1. That close attention and study must be given to teachers' salaries. There is no doubt that the time will come when a limit to this item will have been reached, but when you study the overall picture in the state and nation which shows an average salary of \$2,750 and the price for college graduates set at \$2,200 for the coming year together with the competition brought about by a scarcity of teachers, the situation boils down to the fact that unless enough money is appropriated to hold our best teachers, outside forces will take a hand and Raymond will be left with an inferior product.

2. That there is grave concern about the return to the old formula in figuring the amount of State Aid to the school districts of the state. In 1947-48 and in 1948-49 the School District of Raymond received approximately \$13,600 in State Aid. This amount seems to be on the way out and of being reduced to about \$5,500 for 1949-50 if we are to believe what the new state administration has recommended. This means an increase in local taxes for the support of schools. Unless a favorable legislature and chief executive will renew the passage of the two million dollar state aid bill, every town in the state must go back two years in the attempt to meet rising educational costs. And it might be added that in Supervisory Union No. 53 nearly every district has made provision to raise the necessary amount in case this bill does not pass the present legislature and governor. Therefore, especial attention is called to this fact in this report for your careful consideration.

3. That although every taxpayer knows that changing and increasing costs of living have made considerable change in living conditions, it is urged that you consider this same increase in connection with school costs especially for supplies, fuel, increased insurance rates, retirement for teachers and other employees, health supervision, increased enrollment which has made it necessary to pay back to the State Department an increased amount of per capita tax and other instructional costs. Please keep these factors in mind when you are studying the budget for 1949-50.

4. That art be given a place in the curriculum for those boys and girls who would open another channel to a better life.

5. That provision be made through the administration whereby both boys and girls may be given a chance to participate in physical growth under supervision. This is an im-

portant phase of education and should have your close attention as a course in the school.

Again I wish to express my appreciation for the cooperation and confidence of the School Board during the past year in my endeavors to make the schools of Raymond a factor in the lives of all the children of all the people.

Respectfully submitted,

MURRAY H. WATSON.

November 24 and 25	Thursday and Friday, Thanksgiving

REPORT OF THE HEADMASTER, 1949

Many changes have been made in our high school this past year. We are fortunate in being able, through the addition of another teacher and more classroom space, to supply or meet all demands of our students. Whether it be Agricultural, Commercial, Home Economics, General or College Preparatory Courses our students are able to matriculate in their own field.

We are arranging, with the cooperation of the Bourque Shoe Co. and the assistance of Mr. Burke, a new training and aptitude course. This course is to enable those pupils interested in shoe work to be prepared to make a living when they graduate from school. This type of course has been approved by the State Department of Education.

Our Commercial Department has received a streamlining. Basic requirements in English are required before a pupil may be allowed to take a straight commercial course. The program of study in this field now contains: Stenography I and II, Bookkeeping I and II, Commercial Law and Office Practice with a basic course in Junior Business Training. Our aim is to have commercial graduates able to accept positions upon completion of their Senior year.

Agricultural courses are designed over a four-year period to give a pupil an extended and broad course which may help him be a better prepared farmer or select a line in which he has found an interest and be able to follow this interest intelligently.

The Home Economics course has been revamped with the addition of a new course so that girls not planning further education will get a foundation to develop their home life.

Our General Course is for the average pupil who does not wish to follow any one pattern but wants a combination of subjects for a general education. The College Course, through the addition of one teacher in Math and Science, now includes a preparation for technical and scientific as well as liberal arts colleges. Last year all students applying for college entrance were admitted without examination. Anyone with an average of 85 or better may be recommended for college.

School activities have been functioning very well. Our old debt has been paid off and we started this school year with well over a hundred dollars in our treasury.

Events this year call for a teachers' play, Carnival for youngsters, the annual One-Act Play Contest, the Annual Music Concert and the usual Class dances.

I believe this an appropriate time to show my appreciation to the pupils and teachers for their co-operation in the use of the building during the fall when school was keeping under the trying conditions of construction. They all did an exceptionally fine job.

Speaking for myself and the student body we wish to express our gratitude to the Chief of Police and his force for their many unpaid vigilances of social events at our school.

In closing I wish to thank the Superintendent, School Board, Members of the Faculty, janitor, parents and friends in the Town of Raymond for a most pleasant, cooperative and productive year.

Respectfully submitted,

WALTER L. MIREY, JR.,
Headmaster.

REPORT OF THE SCHOOL NURSE

(Health Report for the School Year from
September, 1947, to June, 1948)

To the Superintendent of Schools and the School Board:
Number of pupils examined—350.

Defects	Number affected	Reported to parents	Under treatment	Corrected
Underweight, 10%	10	10	10	6
Defective vision	7	7	0	5
Defective hearing	3	3	2	0
Orthopedic defect	2	2	1 (imp.)	0
Defective teeth	210	0	0	64
Diseased tonsils	5	5	0	2

Communicable Diseases: Chicken Pox 2; Mumps 4; Whooping Cough 38. T. B. Patch Test given to 116 pupils. Four pupils had chests X-rayed. Audiometer Tests given to 238 pupils.

Number of Home Visits, 126; number of school visits, 324.

A national report on Tuberculosis on the mass x-ray drives discloses that although it is only four years since a nation-wide search for tuberculosis started and during this time more than ten million persons have been x-rayed each year.

Through the cooperation of the New Hampshire Tuberculosis Association, Raymond has a Patch Test Clinic for the junior and senior high school students. This clinic has been carried on since 1939. At first it was held every other year, but for the past several years it has been a yearly clinic. Written permission is obtained from the parents before the tests are made. All positive reactors are advised to have a chest x-ray.

This screening makes it possible to locate, in the supposedly healthy students the early or incipient

stages of the disease. It also makes the teen-age boy and girl realize that a yearly check-up is important. It is gratifying to note that almost 100% of the students take the test. This, I feel sure, is because of the fine cooperation of the parents in all school health work.

Respectfully submitted,

MARGARET E. CRONIN, R. N.

**RAYMOND SCHOOL BOARD'S ESTIMATE FOR
YEAR 1949-50**

School Board's statement of amounts required to support the public schools and meet other statutory obligations of the district for the fiscal year beginning on July 1, 1949.

Support of the Schools:	High School	Elementary School
6. Teachers' salaries,	\$16,970 00	\$16,470 00
7. Books and Other Instructional Aids,	450 00	550 00
8. Scholars' Supplies,	750 00	750 00
10. Other Instructional Expenses,	150 00	150 00
11. Salaries of Janitors,	605 00	1,495 00
12. Fuel or Heat,	565 00	1,635 00
13. Water, Light, Supplies and Expenses,	420 00	780 00
14. Repairs and Replacements,	385 00	815 00
15. Health Supervision,	315 00	785 00
16. Transportation,	1,600 00	3,900 00
18. Special Activities and Special Funds,	285 00	715 00
	<hr/>	<hr/>
Total for High and Elementary Schools,	\$22,495 00	\$28,045 00
		\$50,540 00

Other Statutory Obligations:

1. Salaries of district officers,	\$490 00
2. Superintendent's salary, local share,	1,100 00
3. Per capita tax, state-wide supervision,	664 00
4. Salaries of other administrative officers,	325 00
5. Supplies and other expenses, administration,	700 00
19. Retirement, district's share,	1,900 00
20. Insurance, Treasurer's bonds and expenses,	975 00
23. New equipment,	200 00
25. Payment of principal of debt,	3,000 00
26. Payment of interest on debt,	850 00
	<hr/>
Total for other obligations,	\$10,204 00

Total amount required to meet School Board's budget, \$60,744 00

ESTIMATED INCOME OF THE DISTRICT

Balance estimated for June 30, 1949,	\$2 13
Estimated State Aid, December, 1949,	13,700 00

TOWN OF RAYMOND

77

Estimated Federal Aid from Home Economics and Agriculture,	2,000 00
Tuition receipts, elementary and secondary,	2,700 00
Estimated Dog Tax,	300 00
All other estimated income,	100 00
DEDUCT total estimated income,	\$18,802 13

Total amount to be raised and appropriated to balance School Board's budget for 1949-50, \$41,941 87

JOSIAH R. GORDON,
ARTHUR W. SEVERANCE,
MILDRED R. GUPTILL,

School Board of Raymond.

Raymond, N. H.
February 15, 1949

SCHOOL WARRANT**THE STATE OF NEW HAMPSHIRE**

To the Inhabitants of the School District in the town of Raymond, N. H., qualified to vote in District Affairs:

You are hereby notified to meet at the Raymond School Auditorium in said district on the 7th day of March, 1949, at eight o'clock in the afternoon, to act upon the following subjects:

1. To choose a Moderator for the coming year.
2. To choose a Clerk for the ensuing year.
3. To choose a Member of the School Board for the ensuing three years.
4. To choose a Treasurer for the ensuing year.
5. To determine and appoint the salaries of the School Board and Truant Officer, and fix the compensation of any other officers or agent of the district.
6. To hear the reports of Agents, Auditors, Committees, or Officers chosen, and pass any vote relating thereto.
7. To choose Agents, Auditors and Committees in relation to any subject embraced in this warrant.
8. To see if the district will vote to make any alteration in the amount of money required to be assessed for the ensuing year for the support of public schools and the payment of the statutory obligations of the district, as determined by the school board in its annual report.
9. To see if the district will vote to make available the balance of \$1,005.47 from the amount raised and appropriated to paint outside school buildings to cover an expected deficit during the present fiscal year.

10. To see if the district will vote to increase the amount of insurance on school property and raise and appropriate money for same.

Given under our hands at said Raymond this 3rd day of February, 1949.

JOSIAH R. GORDON,
ARTHUR W. SEVERANCE,
MILDRED R. GUPTILL,
School Board.

A true copy of Warrant—Attest:

JOSIAH R. GORDON,
ARTHUR W. SEVERANCE,
MILDRED R. GUPTILL,
School Board.
